Jabra  
JX10

A pure design attitude

What you wear

reflects who you are

The Jabra JX10 takes wireless headset design to the next level. This small and stylish headset is sure to make a big impression.

Uncompromised design

World-renowned Danish designer, Jacob Jensen, designed this state-of-the-art Bluetooth® headset where style is the operative word. The result is uncompromised design – the perfect fusion of function and form.

Featherweight heavyweight

The sleek, compact design makes Jabra JX10 amongst the smallest and lightest headsets available – but there is no compromise on the prize-winning functionality and performance that Jabra is famous for. Weighing in at less than 10 g, you'll barely feel you're wearing it.

Recharge

Go

Every aspect of the Jabra JX10 is designed to perfection. Even recharging is stylish and simple with this elegant desktop charging cradle. Just stow your JX10 in the cradle, and it will be ready to go whenever you are.

A black and white photograph of a man and a woman in profile, facing each other. Both are wearing white Jabra earbuds. The woman is on the left, and the man is on the right. The man's hand is near his ear, and he is wearing a yellow wristband. The background is dark.
